

According to REACH Regulation (EC) No 1907/2006, as retained and amended by SI 2019/758 and SI 2020/1577

SAFETY DATA SHEET

## RUSTIC FLOOR OIL

SECTION 1: Identification of the substance/mixture and of the company/undertaking

## 1.1. Product identifier

Trade name

RUSTIC FLOOR OIL

# 1.2. Relevant identified uses of the substance or mixture and uses advised against Relevant identified uses of the substance or mixture

## Oil treatment of wood.

Uses advised against

## None known.

1.3. Details of the supplier of the safety data sheet

## Company and address

## Junckers Industrier A/S Vaerftsvej 4 4600 Koege Denmark Tel. +45 70 80 30 00

▼ Importer

## Junckers Ltd.

Warren Park, 5 Warren Yard, Wolverton Mill Milton Keynes MK12 5NW Tel. 0 1376 534 700

#### E-mail

productsafety@junckers.dk

## Revision

26/09/2024

SDS Version

6.0

#### Date of previous version 01/04/2023 (5.0)

## 1.4. Emergency telephone number

National Poisons Information Service (NPIS): Call 111 (24 h service). See section 4 for first aid measures.

## SECTION 2: Hazards identification

```
2.1. Classification of the substance or mixture
```

Not classified according to Regulation (EC) No. 1272/2008 (CLP) as retained and amended in UK law.

## 2.2. Label elements

```
Hazard pictogram(s)
Not applicable.
Signal word
Not applicable.
Hazard statement(s)
Not applicable.
Precautionary statement(s)
General
```

Response

Storage

-

Disposal

Hazardous substances

None known.

Additional labelling

EUH210, Safety data sheet available on request.

▼VOC

VOC content: ≤ 440 g/L

MAXIMUM VOC CONTENT (Phase II, category A/i (SB): 500 g/L)

#### 2.3. Other hazards

## Additional warnings

Risk of self-ignition. Store used cloths, brushes etc. in a fireproof container, such as a jam jar or metal can with a tight-fitting lid. Always close the packaging carefully after use and when it is empty. Dispose of used tools and packaging in accordance with national waste regulations.

This mixture/product does not contain any substances known to fulfil the criteria for PBT and/or vPvB classification.

This product does not contain any substances considered to be endocrine disruptors in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2023/707.

SECTION 3: Composition/information on ingredients

#### 3.1. Substances

Not applicable. This product is a mixture.

#### 3.2. ▼Mixtures

Product/substance	Identifiers	% w/w	Classification	Note
Hydrocarbons, C12-C15, n- alkanes, isoalkanes, < 2 % aromatics	CAS No.: EC No.: 940-727-9 UK-REACH: Index No.:	20-30%	EUH066 Asp. Tox. 1, H304	
Hydrocarbons, C11-C12, isoalkanes, < 2 % aromatics	CAS No.: EC No.: 918-167-1 UK-REACH: Index No.:	10-25%	EUH066 Flam. Liq. 3, H226 Asp. Tox. 1, H304	

See full text of H-phrases in section 16. Occupational exposure limits are listed in section 8, if these are available.

## Other information

## SECTION 4: First aid measures

## 4.1. Description of first aid measures

## **General information**

In the case of accident: Contact a doctor or casualty department – take the label or this safety data sheet. Contact a doctor if in doubt about the injured person's condition or if the symptoms persist. Never give an unconscious person water or other drink.

## Inhalation

Upon breathing difficulties or irritation of the respiratory tract: Bring the person into fresh air and stay with him/her.

#### ▼ Skin contact

Upon irritation: rinse with water. In the event of continued irritation, seek medical assistance.

## ▼ Eye contact

If in eyes: Flush eyes with water or saline water (20-30 °C) for at least 5 minutes. Remove contact lenses. Seek medical assistance and continue flushing during transport.

## Ingestion

If the person is conscious, rinse the mouth with water and stay with the person. Never give the person anything to drink.

In case of malaise, seek medical advice immediately and bring the safety data sheet or label from the product. Do not induce vomiting, unless recommended by the doctor. Have the person lean forward with head down to avoid inhalation of or choking on vomited material.

Burns

#### Not applicable.

4.2. ▼ Most important symptoms and effects, both acute and delayed None known.

## None known

4.3. ▼Indication of any immediate medical attention and special treatment needed

## Treat symptomatically.

## Information to medics

Bring this safety data sheet or the label from this product.

## **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

Suitable extinguishing media: Alcohol-resistant foam, carbon dioxide, powder, water mist. Unsuitable extinguishing media: Waterjets should not be used, since they can spread the fire.

## 5.2. Special hazards arising from the substance or mixture

Fire will result in dense smoke. Exposure to combustion products may harm your health. Closed containers, which are exposed to fire, should be cooled with water. Do not allow fire-extinguishing water to enter the sewage system and nearby surface waters.

If the product is exposed to high temperatures, e.g. in the event of fire, dangerous decomposition compounds are produced. These are:

Carbon oxides (CO / CO2)

## 5.3. Advice for firefighters

Fire fighters should wear appropriate personal protective equipment.

SECTION 6: Accidental release measures

## 6.1. ▼ Personal precautions, protective equipment and emergency procedures

Contaminated areas may be slippery.

## 6.2. Environmental precautions

Avoid discharge to lakes, streams, sewers, etc. Keep unauthorized persons away from the spill

6.3. Methods and material for containment and cleaning up

Use sand, sawdust, soil, vermiculite or similar to collect liquid material. Subsequently, place in a suitable waste container.

Wherever possible cleaning should be performed with normal cleaning agents. Avoid use of solvents.

## 6.4. Reference to other sections

See section 13 "Disposal considerations" on handling of waste.

See section 8 "Exposure controls/personal protection" for protective measures.

SECTION 7: Handling and storage

## 7.1. Precautions for safe handling

Cloths etc. used to apply the product can self-ignite. Place used cloths in an airtight and non-flammable container. Smoking, drinking and consumption of food is not allowed in the work area.

See section 8 "Exposure controls/personal protection" for information on personal protection.

## 7.2. Conditions for safe storage, including any incompatibilities

Containers that have been opened must be carefully resealed and kept upright to prevent leakage.

## Recommended storage material

Always store in containers of the same material as the original container.

Dedicated work clothing should be	-		-

No relevant or available data due to the nature of the product. 9.2. Other information ▼VOC (g/l) ≤ 440 ▼Oxidizing properties No relevant or available data due to the nature of the product. Other physical and chemical parameters No data available. SECTION 10: Stability and reactivity

### 10.1. Reactivity

No data available.

#### 10.2. Chemical stability

The product is stable under the conditions, noted in section 7 "Handling and storage".

- 10.3. Possibility of hazardous reactions
- None known. 10.4. Conditions to avoid

Do not expose to any forms of heat (e.g. solar radiation). May lead to excess pressure.

10.5. Incompatible materials

Strong acids, strong bases, strong oxidizing agents, and strong reducing agents.

10.6. ▼ Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced

SECTION 11: Toxicological information

## 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008 as retained and amended in UK law

▼ Acute toxicity

Based on available data, the classification criteria are not met.

## Skin corrosion/irritation

Based on available data, the classification criteria are not met.

#### Serious eye damage/irritation

Based on available data, the classification criteria are not met.

▼ Respiratory sensitisation

Based on available data, the classification criteria are not met.

Skin sensitisation

Based on available data, the classification criteria are not met.

## Germ cell mutagenicity

Based on available data, the classification criteria are not met. Carcinogenicity

Based on available data, the classification criteria are not met. Reproductive toxicity

Based on available data, the classification criteria are not met.

STOT-single exposure

Based on available data, the classification criteria are not met.

STOT-repeated exposure Based on available data, the classification criteria are not met.

Aspiration hazard

Based on available data, the classification criteria are not met.

## 11.2. Information on other hazards

Long term effects

None known.

#### Endocrine disrupting properties

This mixture/product does not contain any substances known to have hormone-disrupting properties in relation to health.

Other information

None known.

According to REACH Regulation (EC) No 1907/2006, as retained and amended by SI 2019/758 and SI 2020/1577

**SECTION 12: Ecological information** 12.1. Toxicity No data available. 12.2. ▼ Persistence and degradability Product/substance Hydrocarbons, C12-C15, n-alkanes, isoalkanes, < 2 % aromatics Result: 71 % Conclusion: Readily biodegradable OECD 301 F Test: 12.3. ▼ Bioaccumulative potential Based on available data, the classification criteria are not met. 12.4. Mobility in soil No data available. 12.5. ▼ Results of PBT and vPvB assessment This mixture/product does not contain any substances known to fulfil the criteria for PBT and vPvB classification. 12.6. ▼ Endocrine disrupting properties This mixture/product does not contain any substances considered to have endocrine-disrupting properties in relation to the environment. 12.7. Other adverse effects None known. SECTION 13: Disposal considerations Waste treatment methods Product is not covered by regulations on dangerous waste. A change (in proportion to the last essential change (first cipher in SDS version, see section 1)) is marked with a triangle.

The information in this safety data sheet applies only to this specific product (mentioned in section 1) and is not necessarily correct for use with other chemicals/products.

It is recommended to hand over this safety data sheet to the actual user of the product. Information in this safety data sheet cannot be used as a product specification.
